TUBI FLESSIBILI

La funzionalità dei tubi flessibili è quella di assorbire le vibrazioni provenienti dal motore e dal resto dello scarico. Essi possono essere di dimensioni varie, infatti vanno da un minimo di 30mm ad un massimo di 150mm in materiale ZINC oppure INOX.

I nostri flessibili sono prodotti condoppio sistema di aggraffatura per assicurare la massima tenuta e durata. AssicuriAMO per tanto oltre alla adattabilità di tali prodotti, una qualità garantita dalla materia prima con la quale vengono realizzati ed un controllo del nostro ufficio tecnico, volto ad assicurare l'effettiva funzionalità del prodotto stesso.

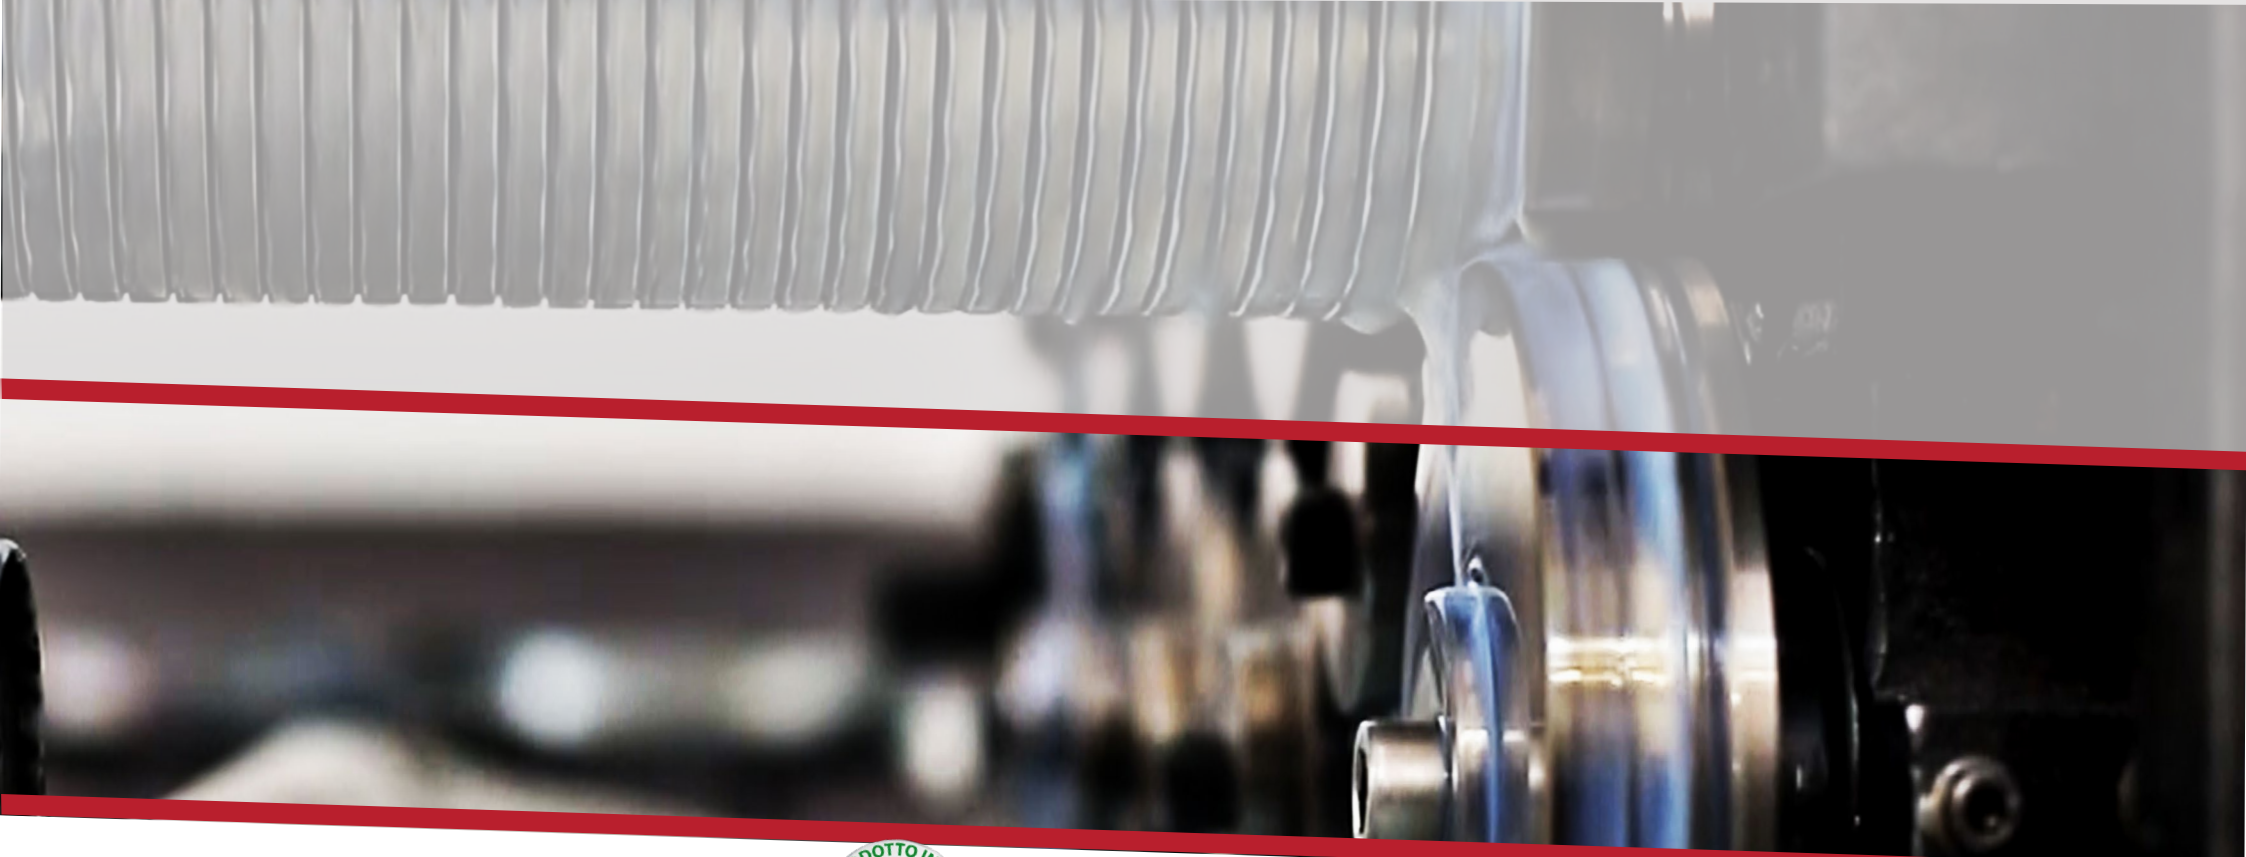

TUBOS FLEXIBLES

La función principal de los tubos flexibles es absorber las vibraciones provenientes del motor y del resto de los gases de escape.

Pueden ser de varios tamaños, de hecho desde un mínimo de 30 mm hasta un máximo de 150 mm de diámetro en material zincado o acero inoxidable.

Nuestras mangueras están fabricadas con un sistema de doble costura para garantizar el sellado y la durabilidad máximos.

Aseguramos, además de la adaptabilidad de estos productos, una calidad garantizada por la materia prima con la que están hechos y un control de nuestra oficina técnica, dirigido a garantizar la funcionalidad efectiva del producto
